

# REAL PASSION , REAL RIDE

---

DARE challenges the possibilities, invigorating your passion and breaking boundaries.

An elite bike allows you to cycle fearlessly and get the most out of each ride.

This is why DARE aims to produce high-quality bikes.

We design with real passion to give you a real ride.

Just focus on cycling, and leave everything else to DARE.

#REALRIDE #DARECARE #DAREIT

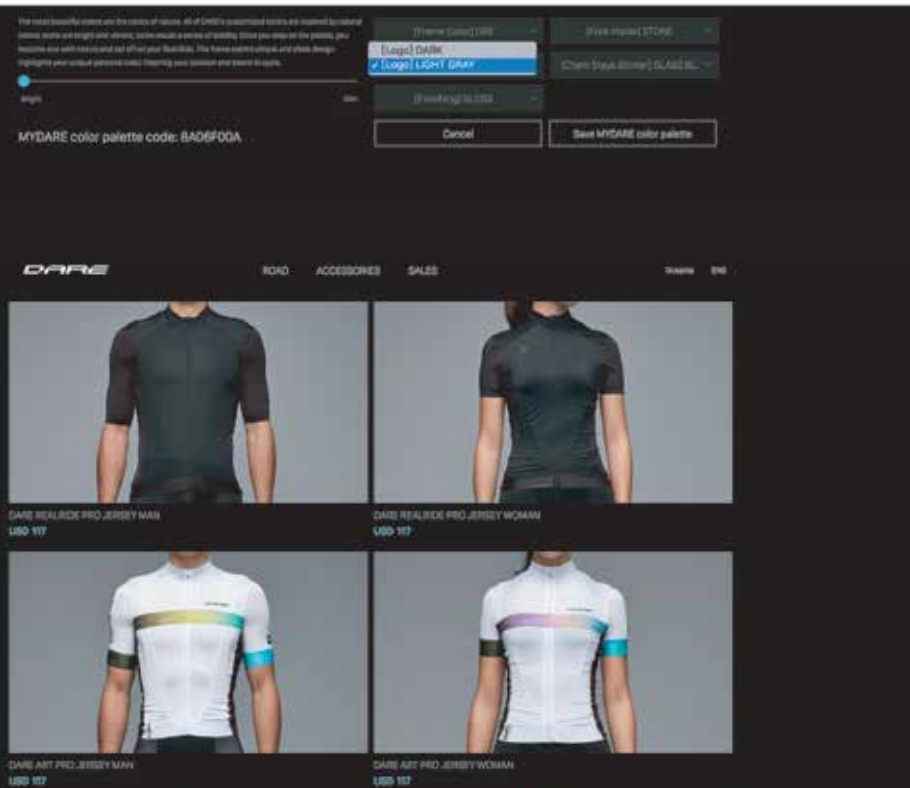

# DARE-BIKES.COM

## A TRUSTWORTHY ONLINE BIKE SHOP

Now, you can buy a customized DARE bike online! You do not need to find a bike shop to buy a professional bike anymore! Simply do the three following steps: first, choose a color, second, choose your desired specification, and finally, find a suitable frame size. Once you have placed an order, our professional technicians will assemble your bike just the way you want it. And plus, we deliver globally for free! With reasonable prices and a complete after-sales service, we want you to focus on pedaling and leave everything else to DARE!

# MYDARE

## YOUR PREMIUM BIKE

DARE provides our customers with a meticulous and thorough assembly and frame colors service. We answer any query you have, and advise on how to assemble your bike. In addition to colors, we also provide the best components for our customers to choose, including different sizes of the frame, stem, handlebar and crank arm.

Each cyclist may demand different geometry in terms of component level and size, and may have various assembly requests. Therefore, each bike is assembled by one technician who knows how to make adjustments according to different individual needs.

# DARECARE

## WE CARE YOUR CYCLING

For every bike we sold out, DARE offers our bike owner the most thoughtful and premium service. Once you purchase our bike, you are entitled to free return with- in seven days of purchase. After having your bike registered, you will also enjoy a six-year warran- ty that covers damage caused by non-human fac- tors. We even offer a discount for crash replacement within three years of purchase. Treating each bike we sold out as our own child, DARE not only provides our customers with EZBOX that is specially designed for bike transportation, but also regularly sends out maintenance notice, offers paid maintenance service, and so on. Sometimes we even give our VIP gifts. DARE insists on offering only high-quality service.

## UCI TEAM

DARE MR1s and TSR have pass UCI certified.

In 2018, DARE cooperated UCI team, Uno-X Norwegian Development Team. It is organized by Uno-X and the two topmost cycling clubs in Norway, Ringerike Sykkelklubb and Lillehammer Cykleklubb, with the goal to develop robust riders with good values.

They believe in building a strong team with role models, and thereby setting the scene for the next generation of Norwegian riders.

### INTEGRATED CHAIN CATCHER READY

DARE has developed an integrated chain catcher which prevents the chain from slipping off the small ring during gear changes, enabling the rider to pedal and shift without worry.

### COMFORT + CHANNEL FRAME DESIGN

In order to increase riding comfort without adding extra weight, DARE designed a hollow section between the top tube and the seat post area. Also, a sharp blade seatstay improves flexibility and reduces vibrations.

### FLAKARMOR

'Sigmatex carbon fiber' with its special texture (fish-like scales) gives the frame a great texture as well as being lightweight and high performance.

### VETOX UNIQUE TUBE DESIGN

The VETOX head tube has special wind breaking flow guiding groove design for positive airflow to be split and fit bike body. In conjunction with the perfect integral profile of the disc brake front fork, optimal wind breaking hydromechanics is achieved.

### INTEGRATED HIDDEN SEATCLAMP

The IHS integrated hidden seat post is combined with the top tube integrally. With consideration of hydromechanics, the compact top tube is shaped as a blade to provide a stunning visual effect.

### AERODYNAMIC INTEGRATED HEADSET

AIH dedicated aero-shaped mounted head set has an upper cover using a circular cone. It is designed to integrate both mechanical routing and DI2 electronic routing hole location. Unique olecranon-like shape provides optimal aerodynamic feeling.

### HIDDEN DM REAR BRAKE

The Aero design also considers the rear brake by covering a Direct Mount brake on the bottom of BB to minimize air resistance. In conjunction with direct pulling brake internal routing, the most direct braking efficiency is provided.

Extend Stem System

Adjustable Rest Pad

Adjustable Rest Height

Handle Bar Type

Adjustable Seat

### TRANSFORMER STEM BAR

TSB integrates a stem-handle bar system to provide various extended lengths and angles for use in conjunction. Based on the UCI 3:1 regulation, more adjustment spaces are provided for the integrated system

used by TSR, such that riders could configure the best riding posture with respect to ergonomics without feeling uncomfortable during a long-term race.

### ROTATING ANGLE CONTROLLER

RAC hidden steering, stem steering limiters allow riders to keep the bike forward when walking the bike in race, so the handle bar can be prevented from colliding with the top tube due to the deflection of the bike head.

### INTEGRATED CABLE ROUTING

TSIC as an innovative comprehensively integrated internal routing system conceals the derailleur cable and brake within the frame completely from the aerobar through the stem and frame to the front fork.

In addition to perfect compact profile, turbulent flow and interference from cables for time trials are both configured to minimize air resistance.

# AWARD

Hewing to the principle of innovation and design, DARE aims to create high-end bikes. Our bikes have passed testing in accordance with the ISO 4201 for road bikes, and are UCI certified. We have also received German Red Dot Award for Product Design and German IF Product Design Award, which show that our design is acknowledged worldwide. We have not only devoted ourselves to bike design, but also strived to carry out strict quality control.

DAKING!
